Aregbesola Paul

A full stack developer specializing in JavaScript and PHP.
I'm passionate about crafting clean, efficient code and
creating seamless user experiences.

EXPERIENCE

Lead PHP Dev, Programmify   June — Present

Led PHP development efforts as a senior engineer, overseeing projects and mentoring new interns.
Managed and maintained company websites, ensuring robust functionality and high-performance
standards.
Collaborated with cross-functional teams to implement scalable solutions that aligned with business
goals.

Full Stack Dev, Userve Wireless Solutions   Sept — Jan 2024

Managed frontend and backend development for client websites using HTML, CSS (including
Tailwind CSS), JavaScript (including TypeScript and React), and PHP.

Ensured cross-browser compatibility, mobile responsiveness, and high-performance standards
throughout development.

Collaborated closely with stakeholders to deliver customized solutions that met client objectives
effectively.

Intern, Programmify   May — Sept 2023

Managed frontend and backend development for client websites using HTML, CSS, Sass,
JavaScript, jQuery, and PHP.

Ensured cross-browser compatibility, mobile responsiveness, and high-performance standards
throughout the development lifecycle.

Collaborated closely with stakeholders to deliver customized solutions that met client objectives
effectively.

Intern, Userve Wireless Solution   May — Sept 2023

Managed frontend and backend development for client websites using HTML, CSS (including
Tailwind CSS), JavaScript (including TypeScript and React), and PHP.

Ensured cross-browser compatibility, mobile responsiveness, and high-performance standards
throughout development.

Collaborated closely with stakeholders to deliver customized solutions that met client objectives
effectively.

God's Power Printing Press   May 2020 — Sept 2022

Led the creative development and production of visual assets for client projects, leveraging
proficiency in CorelDRAW and Photoshop.

Collaborated closely with clients to conceptualize and design graphics tailored to their branding
needs, ensuring high visual impact and alignment with their marketing goals. Projects included
logo designs, promotional materials, and digital assets.

Managed the end-to-end process of graphic production, from initial concept sketches to final
output, ensuring exceptional quality and adherence to brand guidelines.

Additionally, oversaw printing processes,
